

TEAM Foundation Accessibility Statement

TEAM Foundation is committed to ensuring that our website, programs, and services are accessible to all individuals, including autistic people, people with disabilities, families, caregivers, and community members. We believe accessibility is an essential part of inclusion, and we strive to create digital and physical environments where every person can participate fully and comfortably.

Website Accessibility

We aim to follow widely recognized accessibility standards, including the Web Content Accessibility Guidelines (WCAG) 2.1, to make our website usable for people of all abilities. Our efforts include:

- Providing clear navigation and readable content
- Using alt text for images
- Ensuring compatibility with screen readers
- Maintaining sufficient color contrast
- Designing pages that can be accessed using a keyboard

We continually review our website and welcome feedback that helps us improve accessibility.

Program & Facility Accessibility

TEAM Foundation works to ensure that our programs, events, and camp environments are accessible and supportive for autistic individuals and people with diverse needs. This includes:

- Sensory-aware spaces and accommodations
- Staff trained in neuro-affirming practices
- Clear communication supports
- Opportunities for individualized modifications when possible

If you or your child requires specific accommodations to participate in our programs, please contact us. We are committed to working with families to meet accessibility needs whenever feasible.

Ongoing Commitment

Accessibility is an ongoing effort. TEAM Foundation will continue to evaluate and enhance our digital and physical environments to ensure they reflect our values of inclusion, dignity, and equitable access.

Feedback & Contact

If you encounter an accessibility barrier on our website or need assistance accessing any part of our programs or services, please reach out:
